

Waste Reception Service Provider Application Procedures

- The Objective is to set out the methods and procedures for the delivery of the service being applied for so that there is a smooth operation for the vessel operators and agents as well at the Port Authority.
- Only persons, businesses or entities that are legally permitted to operate in the Cayman Islands may apply to operate at the Port or any of its premises.
- All operators who wish to operate at the Ports facilities must submit their application to the Port Authority along with copies of the relevant licenses as outlined on the application form. Details of ownership employees, vehicle's and relevant equipment must also be supplied on the application form obtainable from the Port Authority or on its website www.caymanport.com
- It is the responsibility of the entity/operator to ensure they have adequate and properly licensed as applicable equipment, maintained as required to perform the service they will be providing.
- Upon completion and submission of the application form it will be reviewed by the Manager of Operations, or the Manager of Cruise & Security and approved by the Deputy Director of Operations providing all requirements outlined are met.
- The approval is then recorded in the Log of approved vendors at the Port and Port IDs are issued to the company's personnel upon vetting and payment of the applicable fees if any.
